IMPORTANT NOTES:

1. Design Layout: Ensure all crucial elements such as logos and text are positioned at least 1 inch away from the edges to prevent coverage by piping. Additionally, maintain a 1-inch distance from sewing lines to avoid unintended stitching through these elements.

2. Color Representation: Please be aware that the provided proof is for reference purposes only. Due to limitations in printing technology, the actual bag may exhibit slight variations in color compared to the digital proof.

3. Color Specifications: For precise color matching, we recommend providing Pantone color codes. Our team will make every effort to match your specified colors as accurately as possible within the constraints of our production process.
