DESCRIPTION

Our air-sealed inflatable tent is designed for durability and easy use. Once inflated, it stays firm for weeks without continuous airflow. Each inflatable tube features a 0.3mm TPU bladder, more durable than PVC liners, and includes both inflation and safety valves to release excess pressure. The outer tube fabric is made of rugged, anti-scratch material. The canopy is PU-coated 400D Oxford fabric—waterproof, UV-resistant, and fire-retardant—with full-color sublimation printing. Available in multiple sizes (10x10, 13x13, 16x16, 20x20), ideal for promotions, trade shows, and outdoor events. Each tent features four openings and can be customized with wall panels, mesh windows, door walls, awnings, and more. A complete set of accessories is available, including sandbags, electric pumps, stakes, wind ropes, and trolley bags. You can choose the right size for the size of your event and the number of participants, ensuring comfort and convenience for everyone involved.
